Build-Up Keeper – Score vs Prevented goals per 90

Build-Up Keeper – TOP 3 radar chart

Scouting takeaways

Classic Goalkeeper – Shot-Stopping Foundation

Kiany Vroman leads the profile with the most complete traditional shot-stopping performance.

Melvin Mastil follows with strong save efficiency and reliability over volume.

Thijs Jansen rounds out the top group with consistent save output and match stability.

Vroman profiles as the most balanced traditional #1, combining efficiency and security under pressure.

Scouting takeaways

Sweeper Keeper – Depth Control & Proactivity

Celton Biai stands out as the most active space-controller behind the line.

Kiany Vroman ranks again, confirming dual-profile adaptability.

Tijn Smolenaars adds strong exits volume and proactive positioning.

Biai is the most aggressive modern sweeper, while Vroman shows rare role versatility.

Scouting takeaways

Build-Up Keeper – Distribution & Tempo Control

Marvin Hübel tops the build-up profile with elite passing volume and progression.

Yuri Schoonderwaldt impresses with forward distribution and composure.

Paul Reverson adds strong passing range and build-phase involvement.

Hübel profiles as the most possession-oriented goalkeeper in the dataset.

Scouting takeaways

Overall Summary

Kiany Vroman emerges as the most complete keeper, ranking across classic and sweeper roles.

Celton Biai offers the strongest proactive defensive presence.

Marvin Hübel leads in structured build-up and progression.

The U25 goalkeeper pool across Belgium, Netherlands, and Switzerland lower divisions shows clear tactical differentiation — from traditional shot-stoppers to modern build-up distributors — highlighting strong recruitment depth in the region.
